Personal Summary

I am looking for a dynamic role in a forward-thinking organization where I can apply my expertise as a Backend Developer with skills in Python, SQL, ReactJS, and the Tornado framework. With a solid background in API integration, full-stack development, and performance optimization, I also have an experience in hardware-related fields such as Verilog HDL, Arduino, PCB design, and embedded systems. I'm eager to contribute to innovative projects that span both hardware and software, bringing strong problem-solving abilities and a passion for continuous learning.

Technical Skills

Python, C Programming, SQL, HTML, CSS, JavaScript, MATLAB, PCB Designing, Verilog HDL, Assembly Language Programming (MPMC), MS Office

Experience

Nueve IT Solutions – Backend Developer

08/2024 – Present

- Developed and maintained back-end applications using Python (using Tornado), and SQL.
- Integrated third party APIs into the backend system for additional features and functionality.
- Utilized version control systems, such as Git, to manage codebase changes and collaborate effectively with team members.

Bluestock Fintech – Intern

07/2024 – 08/2024

- Designed web pages using HTML, CSS, and JavaScript.
- Developed an application using backend services like Python and SQL.
- Implemented database systems with MySQL for real-time applications.

Bharat Sanchar Nigam Limited (BSNL) – Intern

05/2023 – 06/2023

- Assisted in the installation of fiber cabling systems, including splicing and termination.
- Hands-on exposure to transmission systems, mobile communication technologies, optical fiber infrastructure, network topologies, and signaling methods, GSM architecture, antenna systems

Academic Profile

ANIL NEERUKONDA INSTITUTE OF TECHNOLOGY AND SCIENCES (ANITS)

- Bachelors of Technology (ECE) | (2021 – 2024)
- CGPA – 9.12

GOVERNMENT POLYTECHNIC COLLEGE PENDURTHY

- Diploma (ECE) | (2018 – 2021)
- Percentage – 96.8%

SREE GEETHA VIDYA MANDIR SCHOOL

- SSC | (2017 – 2018)
- CGPA: 9.7

Projects

- Development of a Covid-19 tracker web application using Rapid API, Python with the Tornado framework, SQL, ReactJS, HTML, CSS, and JWT for authentication
- Development of Employee Dashboard web application using Python, the Tornado framework, SQL, ReactJS, HTML, and CSS
- Development of Gaama Restaurant web application using public API's, Python with tornado framework, SQL, ReactJS, HTML, CSS.
- All-in-one robot car using Arduino UNO (line follower, obstacle avoider, voice controlled, IR remote controlled)
- Crop Recommendation System for Precision Agriculture Using Machine Learning (ML) and IoT.
- Smart Garbage level Detection System using Arduino UNO (with ultrasonic sensor, servo motor).
- Smart Irrigation System using Arduino UNO (with relay module, mini water pump motor).

Certifications

- Completion of Course on 'Web Development' organized by Code Alpha.
- Completion of Course on 'Database Management and Systems' organized by NPTEL.
- Completion of Course on 'System Design Through Verilog HDL' organized by NPTEL.
- Completion of Course on 'Python For Beginners' organized by Infosys springboard.
- Completion of Course on 'C Programming' organized by DATAPRO.
- Completion of Course on “Cisco Certified Network Associate” organized by Networking Hardware Company “Cisco”.

Personality Traits

Quick learner, Adaptable, Consistent, Optimistic, Time-punctual, Problem solver

Languages

English, Telugu, Hindi(Slightly).
