Passionate about leveraging strong skills in cybersecurity and full-stack development to enhance open-source platforms, driven by a commitment to creating secure and efficient technological solutions. Demonstrated ability to develop innovative projects like a B2B escrow e-commerce platform and a cybersecurity training platform, showcasing expertise in Node.js, Express.js, and React.js. Eager to contribute to expanding accessible and secure open-source software for empowering users and developers alike.

Education

Kalasalingam Academy of Research and Education

Aug 2022 – May 2026

Btech in Computer Science

- GPA: 8.81/10.0

Skills

Languages: Python, SQL and Javascript

Technologies: ReactJs, Version Control(Git), FireBase

Other Skills: CyberSecurity Fundamentals, Front-end development, Data Structures

Soft Skills: Adaptability Team Collaboration Problem-Solving

Projects

SilkDhukan : A B2B Escrow E-commerce Platform

- A secure B2B platform was developed using Node.js, Express.js, MongoDB, and Razorpay API, following the MVC architecture to ensure scalable and maintainable code.
- Integrated automated escrow services and real-time transaction tracking reduce fraud risk by 70 percent and improve system efficiency by 40
- Implemented JWT authentication, middleware security, and encryption aligned with OWASP and PCI DSS standards.

Cybersecurity Training Platform

- Overview: Built an interactive platform using React.js and Firebase for engaging and accessible cybersecurity education.
- Features: Courses on Cryptography, Network Security, etc.; video lessons, interactive quizzes, favorites system, and real-time progress tracking.
- Technologies: React.js, Firebase, Google Authentication.
- Impact: Improved user engagement and practical skill development for learners of all levels.

Extra Curricular Activites

Languages: Native Telugu, Proficient English and Basic Hindi
