OBJECTIVE

Final-year Computer Science Engineering student with hands-on experience in building scalable web applications using Java, Spring Boot, and REST APIs. Skilled in backend development, authentication systems, and relational databases. Actively seeking internship or entry-level opportunities to contribute to real-world software projects while enhancing technical and problem-solving skills in a collaborative environment.

EDUCATION

College of Engineering Munnar <i>B.Tech in Computer Science Engineering</i>	Idukki, Kerala 2022 – 2026
St Mary's HSS Koodathai <i>Class XII – Bio-Maths</i>	Kozhikode, Kerala 2020 – 2022

EXPERIENCE

Tinkerhub Campus Outreach Lead <i>College of Engineering Munnar</i> – Led outreach initiatives to expand community engagement and promote tech learning. – Organized events, workshops, and fostered collaboration among students.	April 2024 – Present Idukki, Kerala
Examination Duty Head – Placement Cell <i>College of Engineering Munnar</i> – Managed and coordinated placement test logistics and schedules. – Ensured fair exam procedures and resolved operational challenges.	Feb 2024 – Present Idukki, Kerala

PROJECTS

Project Management System 2025 – Built a secure project-task management app with role-based access (ADMIN/USER) using JWT and Spring Security. – Implemented user authentication, authorization filters, and stateless session management via HTTP-only JWT cookies. – Designed RESTful APIs for creating, assigning, and managing tasks under user-owned projects. – Used MySQL for relational data persistence and JPA repositories for query abstraction.	Java, Spring Boot, Spring Security, JWT, MySQL
Authentication & Authorization API 2025 – Developed a secure authentication service with custom user registration, email-based OTP verification, and password reset functionality. – Implemented JWT-based login/logout with token validation, stateless sessions, and role assignment. – Integrated email verification system for account activation and secured endpoints with role-based access. – Followed REST standards, DTO mapping, and built modular services for extensibility.	Java, Spring Boot, Spring Security, JWT, Email API, MySQL

TECHNICAL SKILLS

Languages: Java, C, SQL (MySQL)
Frameworks/Technologies: Spring Boot, Spring Security, Spring MVC, Spring Data JPA
Database: MySQL (RDBMS), JPA/Hibernate
Developer Tools: Git, GitHub, VS Code, IntelliJ, Eclipse, Postman
Version Control: Git (basic knowledge of branching, commits, pull/push)
Soft Skills: Problem-solving, Teamwork, Communication, Willingness to Learn
