EDUCATION

2021 - 2025 Bachelor's in **Mathematics and Computing** at **NIT Agartala** (GPA: 7.25)
2018 - 2020 Class 12th BSEB Board (78.6)

WORK EXPERIENCE

Software Developer Intern at National Informatics Center

- NIC developed a reusable component that is now implemented in the live **Election Results Dashboard** project, improving functionality and efficiency. Additionally, contributed to the **Container Orchestration** project with a focus on API automation, optimizing deployment, and scalability. Using technologies such as Spring Boot, PostgreSQL, and Postman to streamline development and ensure seamless integration.

Accenture Virtual Internship

- Gain hands-on experience in **Data Analytics** project understanding, data cleaning, and data modeling. Developed actionable insights through data visualization, demonstrating proficiency in analytical problem solving and business intelligence.

PROJECTS

React Firebase Super Chat

[Super Chat](#)

- This is an app created using the tools like **HTML**, **CSS**, **JavaScript** with a framework like **React**.
- A simple full-stack chat demo with React and Firebase.
- Along with the Login and Logout interfaces. we can easily chat with random people in this app

Virtual AI-Assistant

[Virtual Assistant](#)

- Designed and developed a cutting-edge web application utilizing Artificial Intelligence (AI) and Natural Language Processing (NLP) to provide advanced interactive features and real-time voice command capabilities using **HTML**, **CSS**, and **JavaScript**.
- Integrated Speech Synthesis API for dynamic feedback and enhanced user engagement with voice-activated web functions.

Weather WebApp

[WeatherApp](#)

- Developed Weather WebApp, an innovative web app that delivers real-time weather insights through a sleek, user-centric interface with precise temperature, humidity, and wind speed data.
- Spearheaded responsive design and performance optimization, ensuring a seamless experience across all devices and boosting user satisfaction.
- Utilized advanced **HTML**, **CSS**, and **JavaScript** to create a visually compelling weather app, improving usability and data accuracy.

ACHIEVEMENTS

- Ranked in the top **7%** on **CodingNinja's** in 2023 for strong analytical and coding skills.
- Recognized as a **5-star coder** in **competitive programming(C++)** and **SQL** on **HackerRank**, showcasing coding mastery.
- Secured **28th** rank in the CodeRush 2023 coding challenge, hosted by NIT Agartala in collaboration with **AlgoUniversity**.
- Achieved selection in the prestigious **Super 30** program by **Anand Kumar**, ranking among the top 50000+ students.

TECHNICAL SKILLS

Languages C, C++, SQL, Python

Technologies HTML, CSS, ReactJS, Data Visualisation, Power BI

Others Data Structures and Algorithm, Cryptography, Machine Learning, Artificial Intelligence.

LEADERSHIP

- **Placement Coordinator** at **Training and Placement Cell**, NIT Agartala.
- **Manegment head** and CoreMember of **WeCan** social club of NIT Agartala.
