Academic Details

Degree / Certificate	University / Board	Institute / School	Year of Passing	CGPA / Percentage
Graduation	RGPV	SGSITS, Indore	2026	7.06
12 th	CBSE	St. Mary's Convent, Ujjain	2021	96.00 %
10 th	CBSE	St. Mary's Convent, Ujjain	2019	97.40 %

Scholastic Achievements

- Solved 250+ programming problems
 - Power BI - 2 day workshop - certificate of completion from Skill Nation
- 2023-2025
30th June, 2024

Academic Projects

BookSwift | Intracity Book Delivery Website | (Full Stack Website)([Github](#))

Ms. Priyanka Kokate

Ms. Swati Mishra

July '24 - Dec '24

CSE

SGSITS, Indore

- Developed a dynamic and responsive web application aimed at delivering books within the city, promising a 24-hour delivery service. The project leverages modern web technologies and cloud services to ensure scalability, performance, and reliability.
- Designed and developed the frontend using React.js, focusing on responsive design and user experience.
- Configured serverless functions on Netlify to manage backend operations and reduce server load.
- Managed the database on Neon.tech, ensuring data integrity and performance.
- Collaborated with a team of developers to integrate various components and ensure seamless functionality.
- The project was developed using the Agile methodology, specifically following the SCRUM framework, which facilitated iterative development, regular feedback, and continuous improvement through sprints and collaborative team efforts.

Neural Network from Scratch | Python Implementation([Github](#))

Ms. Himani Mishra

Ms. Neha Mehra

Jan '25 - April '25

- Built a neural network from scratch, coding individual neurons and connecting them into layers.
- Implemented activation functions (ReLU, Softmax, Sigmoid, Linear) and cross-entropy loss.
- Developed backpropagation with gradient computations and parameter updates using optimizers (SGD, AdaGrad, RMSprop, Adam).
- Trained a fully functional neural network without external deep learning libraries

Technical Projects

Chatz | Secure Real-Time Chat Application (Full Stack Web App)([Github](#))

Jan '25 - April '25

- Built a chat app with end-to-end encryption using AES/RSA for secure communication.
- Integrated WebSockets (Socket.io) for real-time messaging, typing indicators, and read receipts.
- Designed a responsive UI with media-sharing capabilities for an engaging user experience.
- Deployed as a web service on Render for scalability.

Quizic | Real-Time Online Quiz Platform (Full Stack Web App)([Github](#))

Jan '25 - April '25

- Developed a multiplayer quiz app with WebSocket-based real-time synchronization.
- Designed an intuitive UI with leaderboards and live score tracking.
- Optimized the backend for low-latency performance during high-traffic usage.
- Deployed to a cloud-based server for scalability and reliability.

Platforms, Languages, Technologies & Tools Worked

- Operating Systems** : Windows, Linux
- Programming Skills** : C, C++, Python, Java, JavaScript, Data Structures and Algorithms, SQL
- Web Designing** : HTML, CSS, JavaScript, NodeJS, Bootstrap, React
- Software Skills** : Visual Studio Code, GitHub, Git, Netlify, Neon.tech Integration, PostgreSQL, MySQL, MongoDB, Jupyter Notebook, PyCharm, Android Studio

Positions of Responsibility

- Managed the intercollege sports festival, Varchasva 2025, and organized various sports events.
- Feb 2025

Extracurricular Activities

- Played various volleyball tournaments
 - Our team was the semi-finalist in the volleyball tournament held at IIT Indore in 2023
- 2022-2025
