Education

Lakshmi Narain College of Technology, Bhopal

7.99 CGPA

B.Tech. in CSE (Artificial Intelligence & Machine Learning)

Sept 2022 - Jul 2026

Skills

Tech-Stack: Java, Python, JavaScript, TypeScript, MongoDB, Express.js, Node.js, MySQL, HTML, CSS

Tools & Frameworks: Next.js, React.js, TailwindCSS, Bootstrap, Jest, Git, GitHub, Figma, AWS (S3, VPC)

Certifications: Software Conceptual Design - IIT Bombay, UX Design - Google, Postman API, Neural Networks, Deep Learning, Artificial Intelligence, Exploratory Data Analysis for Machine Learning - IBM

Experience

Product Engineer Intern

Bhopal, India

Intelli Software Labs

May 2024 - Nov 2024

- **Crafted** intuitive **UIs** for over **37 apps**, spanning across e-commerce, healthcare, education & food delivery sectors.
- **Supervised** Flutter team, achieving an outstanding track record of **100%** project completion rate & client satisfaction

Product Strategist (Founding Team)

Hyderabad (Remote)

MentorHeal

Jul 2023 - Mar 2024

- Executed **data-driven** product strategies, boosting **user retention** by **30%** through targeted feature improvements.
- Orchestrated **agile** workflows, aligning tech & marketing teams to accelerate development by **45%** for timely rollouts.

Frontend Developer Intern

Hyderabad (Remote)

MentorHeal

Mar 2023 - Jul 2023

- Implemented **Next.js** with **React.js** & **TailwindCSS**, yielding a significant **70% improvement** in website speed.
- Delivered an **intuitive User Interface** frontend project, producing a **31% decrease** in **mobile bounce rate**.

Projects

NameMind AI: AI-Powered File Renamer | Python, Hugging Face ViT, Tesseract OCR, Tkinter, Next.js  [Visit](#)

- **Automated** content-based file renaming for effortless search using **Google's ViT Model**, achieving **87% accuracy**.
- **Integrated** Tesseract OCR for **multi-format** text/image/document analysis, achieving **93%** text recognition accuracy.
- Engineered a **Windows application** with seamless installation, achieving **4,200+ downloads** via **Next.js** website.

SIH'24 Project: Ocean Oil Spill Detection ML Model | Python, Tensorflow, Keras, CV2, Sklearn, Seaborn  [Visit](#)

- **Won** Internal Hackathon, building an oil spill detection system with **92.4% accuracy** using **U-Net** on **SAR** imagery.
- Processed **200,000 satellite images**, integrating **AIS data** to improve **distress prediction** for ships & oil vessels.

AI Burglar Detection | COCO-SSD, NextJS, React.js, Tensorflow, JavaScript, Lodash, React-webcam

 [Visit](#)

- Integrated **Coco-SSD**, achieving **high precision** in **real-time** intruder detection with a **97%** drop in false alarms.
- Launched on **Peerlist Spotlight**, resulting in a **Top 1% ranking** of trending projects during the week of release.

Extra-Curricular Activities & Achievements

- **AIR 10** Silver-Medalist in **Software Conceptual Design** course at **IIT Bombay** (IITB) out of 886 Students.
- **Developed** and published **28+ NPM packages** using JavaScript & TypeScript, resulting in **6953+ downloads**.
- **Spearheaded** team to finals among **90 teams** in Ramgarh Engineering College's Digital **Startup Hackathon**.
- Enhanced **CodeSetGo's** website with **mobile responsiveness** and contributed **4 PRs** to **Devicon**, expanding library.
- **Recognized** as **6-time LinkedIn Top Voice** in Artificial Intelligence, Machine Learning, Software Engineering, UX, Product Engineering, and Agile Methodologies.

Positions of Responsibility

- **Co-founder, MentorHeal:** Promoted post-internship for driving **60%** revenue growth with strategic product changes.
- **Co-founder, Internglobally Community:** Guided **700+** students in securing internships with a team of 21 friends.
- **UI/UX Instructor at UXcelerate Club:** Enabled hands-on training for **300+** students across **6 workshops**.
