TIC TAC TOE GAME

- Tic-tac-toe (American English), noughts and crosses (Commonwealth English), or Xs and Os (Canadian or Irish English) is a paper-and-pencil game for two players who take turns marking the spaces in a three-by-three grid with X or O.
- The player who succeeds in placing three of their marks in a horizontal, vertical, or diagonal row is the winner. It is a solved game, with a forced draw assuming best play from both players.

E-commerce product recommendation

- Developed and implemented a collaborative filtering recommendation system, increasing user engagement and boosting sales conversion rates through personalized product suggestions tailored to individual customer preferences.
- Utilized machine learning algorithms to analyze customer behavior, resulting in the successful implementation of an innovative recommendation engine that improved the accuracy of product recommendations, driving the increase in customer satisfaction.
- Led the end-to-end development of an E-commerce recommendation system, leveraging Python and relevant libraries, to enhance the user experience.
