Internship Experience

Project Intern – HCL Technologies

September 2023 – October 2023 | Chennai, India

- Developed an online crime management system using PHP and backend technologies.
 - Collaborated with a team to gather requirements, align project objectives, and ensure smooth execution.
 - Presented the final project to local police managers, highlighting key features and benefits.
- Tech Stack Used: Java, PHP

Academic Projects

Crime Management System:

- Developed an online crime management system utilizing PHP for back-end services.
- Implemented user authentication and data management features.
- Utilized SQL for database management and ensured secure data storage.

Track-it System using iBeacon Technology:

- Developed a real-time tracking system leveraging iBeacon technology to track and monitor objects using Android mobile devices.
- Utilized Bluetooth Low Energy (BLE) capabilities of iBeacon to achieve high-precision tracking in real-time.
- Integrated the system with Android mobile platforms for seamless user interaction and data retrieval.
- Implemented real-time updates to provide immediate insights into object locations and movement patterns, improving tracking accuracy.
