Intermediate (12th)	Narayana junior college	2021	97.4%
Matriculation (10th)	Don Bosco HighSchool	2019	100%

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, SQL
Web Technologies	React.js, MongoDB
Cloud	AWS (EC2, Lambda), Git, Docker
Concepts	Unit Testing, CRUD, Authentication
Tools	GitHub, Postman, VS Code

PROJECTS

E-Portal for Court Case Management — MERN Stack

- Developed a web portal with dashboards for clients, advocates, and registrars to manage court case records.
- Implemented role-based access and secure CRUD operations on MongoDB.
- Enabled real-time updates and filtering using aggregation queries.

Domain-Specific LLM Chatbot — Python

- Built a chatbot that answers user queries from structured medical documents using a retrieval-based approach.
- Optimized model performance with quantization and data chunking techniques.

Medicaid URA Validator — Python, SQLite, Streamlit

 [Source](#)

- Designed a tool to validate healthcare claim data with support for encryption and audit trails.
- Automated validation of CPT codes, patient IDs, and claim periods.
- Implemented complete unit testing suite using pytest.
