About Me

I am a passionate and dedicated BTech 3rd-year student at KMIT College, specializing in web development and problem-solving. With a strong foundation in Java, C, Python, HTML, and CSS, I enjoy tackling challenges and building innovative solutions. Eager to enhance my skills further and contribute to impactful projects in the field of technology.

Education

Keshav Memorial Institute Of Technology

Nov 2022 – Sept 2026

Btech. in Computer Science

- CGPA: 7.2/10.0

Intermediate Public Examination

June 2019 – March 2021

- Percentage: 78

June 2008 – March 2019

Secondary School Certificate

- GPA: 8.2/10.0

Technical Skills

- **Programming Languages:** Java, C, Python
- **Web Technologies:** HTML, CSS
- **Database Management:** SQL
- **Operating Systems:** Windows, Linux
- **Development Interests:** Web Development, Problem Solving.

Projects

Event Management

- Developed and deployed event management platforms using MERN stack with responsive designs using HTML and CSS. Collaborated with teams to ensure seamless user experiences.
- Managed end-to-end event logistics, coordinating tasks effectively to meet deadlines. Applied problem solving skills to resolve challenges quickly.
- Delivered user-friendly solutions for event registration and scheduling. Ensured platform reliability and optimized performance.
- **Languages and Technologies:** HTML, CSS, MongoDB, React, Node.js

QR Generator

- Developed a dynamic QR Code Generator web application using HTML, CSS, and JavaScript. Implemented a responsive and user-friendly interface for seamless user experience.
- Integrated a QR code generation library to encode URLs, text, or contact information into scannable QR codes.
- Enhanced application performance with efficient code management and ensured cross-browser compatibility.

Languages and Technologies: HTML, CSS, SQL, MongoDB, Express.js, React, Node.js
