Career Objective

An engineering student who possesses good interpersonal communication skills and wishes to achieve a challenging position in a dynamic organization to contribute to the organization with my skill sets.

Academic Qualification

- **B.Tech (CSE – AI & ML)**, Vignan's Foundation for Science, Technology & Research, Guntur
CGPA: 7.78 (Up to 6th Semester) 2022 – 2026
- **Intermediate (MPC)**, Oxford Junior College, Markapur
Marks: 973 / 1000 2020 – 2022

Projects

Ship Classification using CNN (GitHub)

Mini Project — Team Lead

developed a ship classification system using a custom CNN, ResNet50, MobileNet, and VGG-16 deep learning models. Streamlit was used to deploy it for real-time prediction. The paper "Enhancement of Ship Classification Accuracy with Balanced Data and CNNs" has been successfully published at IEEE CONIT 2025. **Tech:** Python, TensorFlow, Keras, OpenCV, Streamlit

Emoji Recommendation System Based on Facial Expression (GitHub)

Developed a CNN-based facial emotion detector to recommend relevant emojis. Deployed using Flask.

Tech: Python, Keras, OpenCV, Flask

Event Booking System (MERN Stack) (GitHub) (Live Demo)

Created a full-stack event planner platform with booking, listings, and user authentication. **Tech:** MongoDB, Express.js, React.js, Node.js

Technical Skills

Languages: Python, C, Java (Basic), JavaScript (MERN Stack)

Frameworks: TensorFlow, Keras, React, Node.js, Express

Tools: Power BI, Google Colab, VS Code, Git

Concepts: DSA, Networking Basics, DBMS, OS, Debugging

Internship

Full Stack Data Science Intern – Sure Trust

worked with Python, SQL, Excel, and Power BI on ML/DL projects. designed an emoji recommendation system using CNN. Flask APIs and Power BI were integrated into the model deployment process for visual analysis. gained practical experience using automation and data processing tools

Personal Traits

- Strong communication and interpersonal skills - Excellent problem-solving abilities - Effective time management under deadlines - Highly self-motivated and proactive in learning

Area of Interest

- Deep Learning - Data Science

Goals

to become a proficient and qualified **Data Scientist**, developing creative data-driven solutions that have practical uses.

Achievements & Certifications

- NPTEL – Problem Solving in C, Responsible and Safe AI Systems
- Google – AI Essentials, Udemy – DSA using Python
- Cisco – Cybersecurity Essentials, Intro to Cybersecurity
- Networking Essentials
- Python Essentials 1, Python Essentials 2

Hobbies

- Playing Volleyball - Chess
